Purpose of this Mandate Hui

- To provide information about:
 - What a Treaty settlement is
 - The Whakatōhea Pre-settlement Claims Trust
 - The mandate process
- To invite all members of the Whakatōhea Claimant community 18 years of age and over to vote on the resolution that:

"The Whakatōhea Pre-settlement Claims Trust is mandated to represent Whakatōhea in direct negotiations with the Crown for the comprehensive settlement of all of the historical Treaty of Waitangi claims of Whakatōhea"

Ngā Moemoeā

Whakatōhea context

- The Crown has recognised Whakatōhea as a Large Natural Group for the purposes of Treaty settlement negotiations
- The Office of Treaty Settlements and Te Puni Kōkiri have endorsed the Whakatōhea Pre-Settlement Claims Trust's (Pre-settlement Trust) Mandate Strategy and Trust Deed
- The Whakatōhea claimant community is asked to vote on the Pre-settlement Trust achieving a mandate to represent Whakatōhea in Treaty settlement negotiations with the Crown

What is a mandate?

- Granting a mandate:
 - When a claimant group gives a representative body the authority to enter into negotiations with the Crown on their behalf
- Limits on the mandate:
 - Only gives the mandated body the authority to negotiate a draft Deed of Settlement with the Crown
 - Mandated representatives cannot settle any of the claims without the approval of the claimant group
 - The claimant group has the final say on whether or not to accept a draft Deed of Settlement

What is a Treaty Settlement?

- An agreement between the Crown and a claimant group to settle all its historical Treaty claims (whether registered or unregistered) against the Crown
- An acceptance that the settlement is final and settles all the historical claims (whether lodged with the Waitangi Tribunal or not)
- An acceptance that it is not possible to fully compensate the claimant group for grievances and that redress:
 - Focuses on providing recognition of the group's historical grievances
 - Restores the relationship between the claimant group and the Crown
 - Contributes to a claimant group's cultural, social and economic development
- Has three components: an historical account, an apology and acknowledgements and includes cultural, financial and commercial redress

Te Raupatu – Why we are pursuing a settlement

- To recognise and account for the illegal invasion and unjust confiscation of Whakatōhea sovereign lands for crimes incited by inheritance outside of Whakatōhea (1865);
- To recognise and account for the significant loss of life caused by the invasion and the destruction of our lands while our people tried in vain to protect our possessions and taonga
- To recognise that the subsequent effect of this Raupatu has involved years of hardship and poverty, right to the present day
- To recognise and account for the displacement of our hapū and resettlement onto the Ōpape Native Reserve created by the Crown and the pillage, burning and destruction of our economic base and our independence

The Whakatōhea Claimant Community

For the purpose of the mandate being sought, the Whakatōhea claimant community is defined as the descendants of Muriwai and Tūtāmure who affiliate to one or more of the recognised Hapū and Marae of Whakatōhea

VOTING PROCESS

For the purpose of the mandate being sought, the Whakatōhea claimant community is defined as the descendants of Muriwai and Tūtāmure who affiliate to one or more of the recognized hapū and marae of Whakatōhea. All members of Whakatōhea claimant community 18 years and over were invited to vote on the following resolution:

“The Whakatōhea Pre-Settlement Claims Trust is mandated to represent Whakatōhea in direct negotiations with the Crown for the comprehensive settlement of all of the historical Treaty of Waitangi claims of Whakatōhea”

There were three ways to vote; mail, online and at a mandate hui. For those who were not registered or did not wish to be registered with Whakatōhea Māori Trust Board had the option to place a special vote.

QUESTIONS RAISED AND ANSWERED BY TAWC AT EACH HUI

Some attendees questioned Tūtāmure as an equal status to Muriwai.

One of our Whakatōhea Kaumatua explained that Tūtāmure comes off an older generation, Muriwai's daughter Hine-i-Kauia married Tūtāmure, he had mana whenua and protected the eastern sector of Whakatōhea rohe. Also the Whakapapa links of Tūtāmure were explained.

A few attendees questioned the position of TAWC and Whakatōhea Māori Trust board (WMTB).

TAWC formed in 2010 by four hapū; Ngāti Ira, Ngāti Ngāhere, Ngāti Rua and Ngāti Patu. TAWC meet every Monday for five years on a voluntary basis and always had an open door policy for all of the Whakatōhea to attend. TAWC role and purpose was to create a mandate strategy and after many meetings, and consultation sessions with hapū, whānau, ngā uri o Te Whakatōhea, the mandate strategy was reviewed and amended to encompass their thoughts and suggestions and was deemed to be a transparent and inclusive process. If Whakatōhea, votes in favour for the WPCT to be mandated for the purpose of negotiations, then TAWC would cease to exist.

TAWC approached WMTB and demanded that they support them with this kaupapa. The WMTB stated that if they were to participate then the TAWC must adhere to the following rules of transparency, inclusiveness, and honesty. The WMTB agreed at a Trust Board meeting to support hapū achieve mandate and a resolution was moved and second by Ngāi Tamahaua and Te Upokorehe trustee members.

Some attendees expressed a desire to progress their WAI claims through the Waitangi Tribunal and also had some requesting their claims be removed from the Mandate Strategy.

TAWC expressed their support regarding any WAI claimants who want to progress their claims through the Waitangi Tribunal and reiterated that the door was always open, and no one would be left out. TAWC also stated their support for the mokomoko claim that is currently before Parliament. A reminder was provided of the large natural grouping crown policy which means the crown recognizes Whakatōhea as the large natural grouping and they will not negotiate with hapū or whānau individually. The inclusions of all claims in the WPCT mandate strategy is a crown policy.

Area of concern raised; if claimants wished to progress their claim with Waitangi Tribunal will this mandate process hinder it?

TAWC explained there are two ways to go through treaty claims process. The first is the Waitangi Tribunal process which gives the claimant the opportunity to tell their story in front of the Crown and to talk about their mamae and pain. Waitangi Tribunal makes a recommendation, writes a report. That process is between the claimant and the crown. The 2nd pathway is direct negotiations, and that's the path that we are suggesting or promoting. At any time, you can jump from the Waitangi Tribunal process to the direct negotiation process. We don't know how long this will take. I think that hapū would want to hear what you as claimants want to do in the Waitangi Tribunal process.

Further clarification required regarding set up of the WPCT, its accountabilities and responsibilities, the position that the Claims committee hold and also asked why the Whakatōhea Māori Trust Board has a place on the WPCT.

TAWC reiterated that if the WPCT is mandated to negotiate on behalf of Whakatōhea, the next step is to elect and appointment Trustees. Ngā Uri o Te Whakatōhea will have the opportunity to nominate and vote for a member from one of the 6 hapū and ahi kaa will have the opportunity to appoint a member from one of the 8 marae along with the WMTB appointing one member. In 1952, WMTB was founded by six members from each of the six Whakatōhea hapū. Acknowledgement needs to be given to our tūpuna who negotiated our 1st Raupatu claim of 20,000 pounds that was utilized to buy the first farm. Today the WMTB holds all the assets on behalf of Whakatōhea and has provided administration support to whanau, marae and hapū.

TAWC stated that if you have a WAI claim then you can appoint whomever you chose to represent your claim in the claims committee. We need to come together as there may be overlapping interests between hapū and whānau. This is your chance as WAI claimants to tell your story and present your research to the WPCT. Ranginui Walker was acknowledged for contributing extensive amount of research for our raupatu. TAWC also informed attendees that the WAI claims in our rohe are part of Whakatōhea claim as this is a crown policy.

At the end of the Q&A section, one of our kaumatua explained the importance of voting and the opportunity that we all have to participate in the election process. If majority vote in favor for this WPCT to be mandated, it was suggested that people who are elected on to this Trust need to be passionate, honest, and have aroha for this kaupapa. The Trustees will not get paid a lot of money, and it will be imprudent to have all lawyers on the Trust.

Enquiries made about the voting criteria and percentage of votes in favor needed for the WPCT to be the mandated for negotiations?

TAWC stated that for the resolution to be passed we need a majority of votes which means 50% or more and TPK will also take into consideration the consultation process that TAWC has had with whānau, hapū, ngā uri katoa o Te Whakatōhea.

What would happen if the Claim's Trust is not mandated to represent Whakatōhea in direct negotiations?

TAWC stated that we don't want to be in that position because the government has indicated that they want to settle the last of the Raupatu claims. If this does not go ahead, not to sure what will happen, we may have to start again. We do not want to leave this burden for our mokopuna.

Some attendees asked why Whakatōhea did not settle in 1996.

One of the primary issues with the 1996 process was a lack of consultation with Ngā uri katoa o Te Whakatōhea. The TAWC consultation process with whanau, marae and hapū was extensive and took

three years before we were able to develop a Mandate Strategy that was inclusive, transparent, and robust enough to meet the requirements set by the Crown. And now it is up to the Iwi to vote on this resolution.

Questions asked regarding boundaries and shared interest with other iwi.

We have always had shared boundaries and there has already been discussions with surrounding iwi. It is our understanding that we will always have shared boundaries as we did in the past.

Some attendees questioned the Crown's accountability.

Treaty settlements will never heal or compensate for our grievances and loss. Past Grievances have had a cap. However, this is our opportunity to put forward our strategy and redress. It is about the injustice that occurred for us not just about the putea. We need to be clear about what we want as an iwi and need to talk about it and not fight. There are many parts to the redress that is why negotiations is a critical part.

It was asked if there will be two boards functioning, if the WPCT is established?

Whakatōhea Māori Trust board is a government body in place till Whakatōhea settle their raupatu and the Post-Settlement entity is put in place. The WPCT is a temporary trust put in place for the purpose of taking Whakatōhea through negotiations only.

Some attendees concerned about Rongopopoia marae and Turangā Pikitōa hapū not being included in the Mandate Strategy.

One attendee expressed that based on our tikangā, we cannot exclude them from Whakatōhea. TAWC explained that Rongopopoia has settled under Ngai Tuhoe and we have correspondence to support this korero.

Several attendees asked about the responsibilities and accountabilities of the negotiators

Refer to Page 28 of the mandate strategy under 'frame work for negotiators'. The WPCT is responsible for appointing a negotiator or negotiating team. The Claims committee will also work with the WPCT to put together a strategy for the Negotiators to discuss with the Crown. Negotiators are directly accountable to the WPCT and any decisions made will need to be communicated to the iwi for agreement.

Comment: The presenter acknowledged the attendees thoughts for Whakatōhea wanting to go forward and move into negotiations. The presenter explained that the mandate strategy has been written to allow Whakatōhea hapū, whanau and claimant groups to engage in research if they haven't quite finished the story they need to tell. The presenter explained that it can take as long as it needs to get historical research to come forward to present to the Crown.

Comment: Another member of the presentation team explained that te kaupapa o te rā was the mandate strategy - Te Whakatōhea Pre-Settlement Claims Trust. It was explained that the vote will approve that Trust.

Comment: An attendee encouraged the Tu Ake Whakatōhea Collective to honour whakapapa, and the Whakatōhea people.

Comment: An attendee commented that they were from Te Whānau a Mokomoko. The attendee explained that they felt as though they could not support the mandate. The attendee commented that they were not sure if the Mokomoko bill currently in Parliament to amend the current legislation will be affected if the mandate is passed.

Comment: It was commented that Whakatōhea should support the Mokomoko bill and the select committee hearing. It was explained that the Mokomoko bill should not be held up by the Whakatōhea wider claim because it is already in the house.

Comment: It was explained that the Tu Ake Whakatōhea Collective is not seeking to takahi any claim going through. It was commented that all those who have lost their tupuna are acknowledged. It was explained that everyone was welcome on board the mandate proposal, and noted that all Whakatōhea Wai claims have a place on that proposed new structure. It was commented that it would be important to have further discussions.

Q3: An attendee asked whether the Mokomko claim needs to sit inside the Whakatōhea claim considering it is already in the house.

Q2: An attendee noted that the Whakatōhea Māori Trust Board is made up of hapū representation and sought clarification why hapū would ultimately have two seats on the proposed Whakatōhea Pre-Settlement Claims Trust through the Trust Board position and hapū position.

A2: It was explained that the Trust Board will appoint the Trust Board position not hapū.

Q2a: The attendee noted that the Trust Board is appointed by hapū and the Trust Board appointing a member would effectively be giving the Whakatōhea Pre-Settlement Claims Trust another hapū seat.

A2a: It was explained that the Trust Board could appoint any person. It was explained that the Trust Board appointment would provide support.

Q3: An attendee questioned why the Trust Board was supporting Tu Ake Whakatōhea Collective and asked who was paying for mandate hui. The attendee also questioned why Wai claimants hadn't been consulted with.

A3: It was explained that hapū demanded the Trust Boards support and noted that the Trust Board offers support through administration and communications. It was explained that the Crown had endorsed the mandate strategy and it was up to Whakatōhea uri to vote on the mandate resolution.

Q4: An attendee explained that the Whakatōhea Pre-Settlement Claims Trust has no jurisdiction to negotiate the Mokomoko claims, nor has it been instructed by the Mokomoko whānau to do so. The attendee sought to have the Mokomoko claims removed.

The attendee sought clarification regarding the Tupuna and how they were defined in the Whakatōhea Pre-Settlement Claims Trust mandate strategy.

A4: One of the Pakeke explained that Tutamure looked after the boundaries of Whakatōhea. The Pakeke questioned how the older generation could be ignored. The Pakeke explained that the mandate strategy sought to make connections between Tutamure and Muriwai as they are both inherent in Whakatōhea whakapapa.

Q4a: The attendee thanked the Pakeke and noted they did not disagree, however disagreed that Tutamure should be included as an eponymous tupuna.

	<p>A4a: The Pakeke explained that Tutamure was an older generation to Muriwai and questioned how that whakapapa link could be discounted.</p> <p>Comment: An attendee commented that most of Whakatōhea look at their Matatua links and don't look further back, nor do they want to.</p> <p>Q5: An attendee questioned whether Wiwaka or Opoke had given their mandate and questioned what their feelings on the proposal were.</p> <p>A5: It was explained that no mandate had been achieved yet, that is why the Whakatōhea Pre-Settlement Claims Trust is undertaking a voting process – to seek a mandate from Whakatōhea uri.</p> <p>It was noted that all those 18 and over who could whakapapa could vote on the mandate resolution. It was also noted that the voting results will be known after 3 June 2016.</p> <p>Q6: An attendee questioned why they should vote for the Whakatōhea Pre-Settlement Claims Trust and allow it to negotiate their Wai claims when Wai claimants were not consulted.</p> <p>A6: It was explained that Tu Ake Whakatōhea Collective consulted with as many people as possible. It was explained that a lot of time had been spent away from whānau. It was explained that the Whakatōhea Pre-Settlement Claims Trust were not trying to take claims away from individuals and noted the importance of the Whakatōhea claims committee and its importance to providing Wai claimants a voice.</p> <p>It was explained that Tu Ake Whakatōhea has done its best to get to this point and it was ultimately up to Whakatōhea to vote on the mandate proposal.</p> <p>Comment: It was explained that the Whakatōhea Pre-Settlement Claims Trust was considered the most representative of Whakatōhea by the Crown. It was explained that the Whakatōhea claims committee will provide vehicle for Wai claimants to discuss what is best for Whakatōhea and advise the Whakatōhea Pre-Settlement Claims Trust. It was explained that a united Whakatōhea was needed to sit down and discuss what's best for Whakatōhea.</p> <p>It was explained that Whakatōhea will have an opportunity to elect hapū trustees to the proposed Whakatōhea Pre-Settlement Claims Trust. the Trust board will be disestablished and assets transferred to a new entity after settlement legislation.

Comment: A Pakeke asked one of the attendees whether they had sought the opinion of other registered claimants to Wai 205. It was explained that the Tu Ake Whakatōhea Collective had been consulting as much as possible. It was explained that a new entity was being proposed to progress this so there is no hangover from past entities. The Pakeke explained that whakapapa is a taonga and should not be used as a weapon. It was explained that this process will build for the future of Whakatōhea. It was explained that shareholders of claims must be consulted not an individual claimant.

Comment: It was explained that once a mandate body had been established and was through the door to begin negotiations, the other issues can be sorted. It was noted that come November, the Government would be in election mode and it would be difficult for Whakatōhea to get anything through for 12-18 months. Hui attendees were encouraged to participate in the mandate process so Whakatōhea could achieve a mandate and get the best people involved to negotiate with the Crown.

Comment: An attendee agreed that Whakatōhea do need to come together. The attendee commented that the Tu Ake process has lacked fairness and transparency. The attendee commented that Tu Ake Whakatōhea Collective had hui every Monday and a facilitator had been attending hui, yet nobody was told. The attendee explained that they had attended a Monday night hui and the facilitator was on the phone, yet not once was the attendee told that a facilitator had been engaged. The attendee explained that when they did happen to meet the facilitator it was by chance.

Comment: It was explained that there was a proposal on the table and people had the right to vote yes or no. It was explained that the Tu Ake Whakatōhea Collective had been meeting with all groups and individuals who wanted to meet for the past five years.

It was explained that a draft mandate strategy (before being submitted to the Crown) was sent to all groups for comment, which were incorporated into the draft submitted to the Crown. It was explained that this is above and beyond Crown requirements for mandating.

It was also explained that the Tu Ake Whakatōhea Collective was a temporary body to establish a separate, representative, entity to achieve a Crown recognised mandate. It was explained that this entity, the Whakatōhea

The speaker encouraged hui attendees to move forward together.</p> <p>Comment: An attendee commented that their Nan and Pop passed away last year and did not want to miss the opportunity to get to the table with the Crown.</p> <p>Comment: An attendee encouraged the Tu Ake Whakatōhea Collective to make sure they had a strong position on the Trust Board seat of the new entity with regard to the overall hapū representation.</p> <p>Comment: It was concluded that the Tu Ake Whakatōhea Collective had been meeting every week for the past five years with an open door policy to establish a new entity to take Whakatōhea forward. It was noted that some people may disagree and that is kei te pai. Hui attendees were encouraged to exercise their vote whether that be yes or no.</p> <p>It was noted that Whakatōhea may take another 50 years should they not take the opportunity now. It was commented that some want to go through the Waitangi Tribunal process and that is kei te pai, and the door will always be open on the Whakatōhea Pre – Settlement Claims Trust.</p>
